EDUCATION

University of Calgary, Canada *Sep 2022 - Jan 2025*
MSc Mechanical Engineering CGPA: 3.94
Thesis: “Adaptive PD Gains for Energy-Conscious Control in Physical Human-Robot Interaction”
Major Courses: Mathematical Techniques, Nonlinear Control, Advanced Control Systems,
Estimation Theory, Sensor Data and Signal Analysis

National University of Sciences & Technology (NUST), Pakistan *Sep 2017 - Jul 2021*
BE Electrical Engineering CGPA: 3.59
Thesis: “Scalable Self-Supervised Learning for Robotic Grasping”
Major Courses: Advanced Control Systems, Machine Learning, Embedded Systems Design,
Quantum Mechanics, Solid State Electronics

ACADEMIC EXPERIENCES

Research Assistant, CHRC Lab, UCalgary *Sep 2022 - Jan 2025*
Research Assistant at the Calgary Human-Robot Collaboration Lab at the University of
Calgary. Researching compliant control algorithms for human-robot interaction.

Teaching Assistant, Schulich School of Engineering, UCalgary *Jan 2023 - Jan 2025*
I have been a Teaching Assistant for the following courses at the University of Calgary:

- ENME 502 - Mechanical Engineering Capstone Project 2
- ENME 501 - Mechanical Engineering Capstone Project 1
- ENME 505 - Robotics

Team Lead - Electrical Engineering, Drillbotics, UCalgary *Sep 2023 - Sep 2024*
Team Lead for the Electrical Engineering team of Drillbotics at UCalgary. We secured
second place in the international competition for 2024.

Research Assistant, ROMI Lab, SEECS, NUST *Aug 2020 - Jun 2021*
Research Assistant at the Robotics and Machine Intelligence Lab at SEECS, NUST. Did
my Final Year Project in the domain of Self-Supervised Robotics using ROS and Neural
Network Interfacing.

Teaching Assistant, SEECS, NUST *Aug 2020 - Jun 2021*
I have been a Teaching Assistant for the following courses at NUST:

- SE 807 - Machine Learning
- CS 470 - Machine Learning

PROFESSIONAL EXPERIENCES

Algorithms Engineer, Adept Tech Solutions

Mar 2022 - Sep 2022

Working on various aspects relating to Big Data Processing, Statistical Analysis, Machine Learning, and QA Testing.

Machine Learning Engineer, DCube Tech.

Nov 2021 - Mar 2022

Deployment of Computer Vision models for real-time media analytics. Major problems include recognition and transcription of text, and facial recognition and classification.

Computer Vision Intern, Freelance

Mar 2021 - Aug 2021

Work related to Computer Vision research, specifically in the domain of unbiased scene graph generation.

Deep Learning Intern, ASP Lab, SEECS, NUST

Jul 2020 - Oct 2020

Research Intern at Advanced Signal Processing Lab at SEECS, NUST. Projects done in Deep Learning and Computer Vision.

Scientific Content Writing Intern, Spectra Science Magazine

Jun 2018 - Aug 2018

Focus on key aspects of Scientific Writing such as maintaining scientific accuracy, effective storytelling, and interview skills.

SELECT PROJECTS

Scalable Self-Supervised Learning for Robotic Grasping, NUST

Jul 2020 - Jun 2021

This is my Bachelor's thesis. We created a scalable robotic setup that automates both the collection of data, dataset labelling, and the training of the Neural Network for grasping. Based on papers published by Alex Krizhevsky and Abhinav Gupta.

GitHub Repository: <https://github.com/danyalsaqib/self-supervised-robotic-grasping>

Unbiased Scene Graph Generation, Insight SFI Research Centre

Mar 2021 - Aug 2021

An implementation of an unbiased scene graph generator using Kaihua Tang's published papers and github repository as references. Some of the work includes addition of windows compatibility, block diagrammatic explanations, and implementation of the SGG as a function on image inputs.

GitHub Repository: https://github.com/danyalsaqib/SGG_Custom

Machine Learning Basics, SEECS, NUST

Jun 2020 - Feb 2021

Creation of tutorials for Machine Learning Basics, as part of the teaching assistantship at SEECS, NUST. Tutorials include coding lessons for the most commonly used libraries in Machine Learning.

GitHub Repository: <https://github.com/danyalsaqib/Machine-Learning-Basics>

Systematic Comparison of Neural Network Architectures, NUST

Jul 2020 - Sep 2020

Comparing different CNN Architectures using Transfer Learning. Also compared various data augmentation techniques such as geometric transformations, DCT, and DWT.

GitHub Repository: <https://github.com/danyalsaqib/Transfer-Learning-with-Data-Augmentation>

ARM Microcontroller based DMM, NUST

Mar 2019 - May 2019

Implemented a Digital Multimeter using the ADC on an ARM Cortex M4 based STM32F407 Discovery Board. DMM capabilities included measuring Voltage, Current, and Resistances.

GitHub Repository: <https://github.com/danyalsaqib/ARM-Cortex-Multimeter>

SKILLS

Programming Languages and Frameworks

- ROS - Robot Operating System for various setups, with a special focus on ros control packages
- RBDL and Pinocchio for Robot Kinematics and Dynamics
- Assembly, C/C++, and RTOS for Microcontrollers - ARM and AVR Platforms
- Python - Scikit-Learn, NumPy, Pandas, and Matplotlib for Machine Learning
- Pytorch, Keras, and Tensorflow for Deep Learning and Computer Vision
- Flask APIs and Dockerfiles
- Engineering Software - Verilog HDL, Matlab, PSpice, Multisim, Proteus, and AutoCAD
- Quantum Computing - Qbronze Workshop organized by QPakistan and QWorld

Languages

- Urdu - Highly Proficient (Mother Tongue)
- English - Highly Proficient (IELTS: 8.5/9.0)
- German - A1

AWARDS AND SCHOLARSHIPS

Special Trainee Award for Accepted Abstract, Alberta RISE Conference *Sep 2024*
Award was given to the first 100 accepted abstracts at the Alberta RISE Conference 2024.

Competition Winner, Montreal Robotics Summer School *Jun 2023*
Winner of the Autonomous Robotic Navigation Challenge at the Montreal Robotics Summer School 2023, held at Mila - Quebec AI Institute.

NUST Merit Scholarship, NUST *Jul 2019, Jan 2020*
A Merit Scholarship, provided on a 3.8 and higher semester GPA.

Roots Merit Scholarship, Roots School System *Aug 2017*
100 % Scholarship for A levels studies, based on O level grades.

EXTRACURRICULAR ACTIVITIES

Baydari - An Awakening, Non-Profit Organisation *Mar 2021 - Present*
Founder and Charity Drives Organizer

NUST Literary Circle, NUST *Jan 2019 - Sep 2018*
Graphics Designer

SEECS Student Government Association, NUST *Sep 2018 - Jul 2019*
Graphics Designer

IEEE SEECS Chapter, NUST *Sep 2018 - Feb 2019*
Event Logistics

Honet-ICT 2018, NUST *Sep 2018 - Oct 2019*
Graphics Designer
